---

This webpage was created by Leslie Hodges Gallagher, granddaughter of Sidney William Stinnett (1911-1971). Research relied heavily on AI tools (ChatGPT 5, Claude Opus 4.1) and crowd-sourced information from Geni.com, FamilySearch.org, and FindAGrave.com. The current tree, published August 2025, should be considered a working draft while primary historical sources are verified. Family tree diagrams were generated using Python 3.12.11 with Graphviz 13.0.1, with coding support from Claude Code 1.0.83.
